

BUYING ETHER

STEP 1 INSTALLING METAMASK WALLET

To receive and send Ether and to buy HBO you need to install an ERC20 compatible Ethereum wallet. We recommend the Chrome browser plugin MetaMask.

How to use MetaMask?

Click [here](#) for our simple step-by-step guide.

STEP 2 BUYING AND SENDING ETH TO WALLET

Now go to an online seller like Coinbase.com, Kraken.com, Mercadobitcoin.com.br, Cex.io or BitPanda.com. Buy ETH by credit card or bank transfer and send it to your Ethereum address from your MetaMask wallet created in step 1.

Congrats! You are prepared to register here for the HBO token sale starting September at hybr.io/ico
